CHOICE

We encourage and promote individual choice and independence

RESPECT

We believe everyone is unique, we listen and demonstrate care and compassion in everything we do

CARE

We care and we continuously improve what we do

PASSION

We love what we do and encourage creativity and diversity

TEAMWORK

We work together and support each other

Declaration by Board

For the year ended 30 June 2018

The Members of the Board herewith submit the financial report of Shepparton Retirement Villages Inc. for the financial year ended 30 June 2018.

Board Members

The names of the members of the Board in office during or since the end of the financial year as follows.

The Board members were in office for the entire period unless otherwise stated.

Merushe Asim (Board Chair)

Graham Hill (OAM) - retired October 17

David Fordyce

Stephen Merrylees

Michael Hall

Frank Dawson

Elizabeth Lee

Geoffrey Dobson

Rebecca Hearn

Jeanette Powell

Principal activities

The principal activities of the association during the course of the financial year were to provide residential aged care, home care packages and independent living unit accommodation.

Significant changes

No significant changes in the nature of these activities occurred during the year.

Declaration

The accompanying financial statements present the income and expenditure, cashflows, assets and liabilities of the Entity for the year end 30 June 2018.

In the opinion of the Board of Shepparton Retirement Villages Inc:

1. The accompanying financial statements comprising the statement of profit or loss and other comprehensive income, the statement of financial position, statement of changes in equity, statement of cash flows and notes to the financial statements that are set out on pages 5 To 16 are in accordance with the *Australian Charities and Not-for-profits Commission Act 2012, including:*

(a) complying with Australian Accounting Standards - Reduced Disclosure Requirements, Australian Charities and Not-for-Profits Commission Regulation 2013, the Aged Care Act 1997 and the Residential Care Subsidies Principles, 2014 and the Associations Incorporations Reform Act 2012.

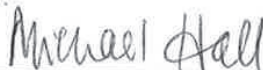

(b) giving a true and fair view of the Entity's financial position as at 30 June 2018 and of the performance for the year ended on that date.

2. There are reasonable grounds to believe that the Entity will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of the Members of the Board.

M. Asim (Chair of Board)

M Hall (Director)

Dated this 25th day of September 2018

Notes to the Financial Statements

For the year ended 30 June 2018

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PREPARATION

The financial statements cover Shepparton Retirement Villages Inc (“Entity”) as an individual entity. Shepparton Retirement Villages Inc is an association incorporated in Victoria and operating pursuant to the Associations Incorporation Reform Act 2012.

The financial statements for the year end 30 June 2018 were approved and authorised for issue on 25th September 2018 by the members of the Board.

The financial statements are Tier 2 general purpose financial statements that have been prepared in accordance with the Associations Incorporation Reform Act 2012 and Australian Accounting Standards – Reduced Disclosure Requirements and the Australian Charities and Not-for-profits Commission Act 2012. Shepparton Retirement Villages is a not-for-profit entity for financial reporting purposes under Australian Accounting Standards.

Australian Accounting Standards set out accounting policies that the Australian Accounting Standards Board (AASB) has concluded would result in financial statements containing relevant and reliable information about transactions, events and conditions.

Basis of measurement

The financial statements, except for the cash flow information, have been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities. The amounts presented in the financial statements have been rounded to the nearest dollar.

Presentation of statement of financial position on a liquidity basis

The Board has taken the view that in complying with the requirements of the AASB 101 the treatment of refundable loans (accommodation bonds, refundable deposits and ongoing contributions) as current liabilities does not reflect the true liquidity of the entity as these liabilities are not likely to be repaid in the next 12 months.

Accordingly, the Board has chosen to present its statement of financial position under the liquidity presentation method (AASB 101 Presentation of Financial Statements) on the basis that it presents a more reliable view. A reconciliation of the refundable loans is provided in note 11.

Comparatives

Where required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

Critical accounting estimates and judgements

The Board evaluate estimates and judgements incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Entity.

KEY ESTIMATES

Impairment

The Board assesses impairment at the end of each reporting period by evaluation of conditions and events specific to the Entity that may be indicative of impairment triggers. Recoverable amounts of relevant assets are reassessed using value-in-use calculations which incorporate key assumptions.

Estimation of useful lives of assets

The estimation of the useful lives of assets has been based on historical experience and industry standards. In addition, the condition of the assets is assessed at least annually and considered against the remaining useful life. Adjustments to useful lives are made when considered necessary.

SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted in the presentation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Income Tax

In accordance with the provisions of the Australian Income Tax Assessment Act, the Entity is exempt from income tax. As at the 30th June 2000 the Entity has been endorsed as an Income Tax Exempt Charity (ITEC) under A New Tax (Goods and Services Tax) Act 1999.

Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as an item of the expense. Receivables and payables in the Statement of Financial Position are shown inclusive of GST. The net amount of GST recoverable from, or payable to, the ATO is included with other receivables or payables in the statement of financial position.

Notes to the Financial Statements

For the year ended 30 June 2018

SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Goods and Services Tax (GST) CONTINUED ...

Cash flows are presented in the cash flow statement on a gross basis, except for the GST component of investing and financing activities which are disclosed as operating cash flows.

Revenue

Revenue from the provision of services is recognised upon the delivery of those services to clients. Interest revenue is recognised on a proportional basis considering the interest rates applicable to the financial assets. All revenue is stated net of goods and services tax (GST) if applicable.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short term highly liquid investments with original maturities of three months or less, and bank overdrafts.

Accounts Receivable and Other Debtors

Accounts receivable and other debtors include amounts due from residents as well as amounts receivable from customers for goods and services sold in the ordinary course of business. All receivables are expected to be collected within 12 months of the end of the reporting period. Collectability of accounts receivable is reviewed on an ongoing basis. Debts which are known to be uncollectable are written off.

Inventories on hand

Inventories on hand are measured at the lower of cost and net realisable value.

Property, Plant and Equipment

Recognition and measurement of Property, plant and equipment

Property, plant and equipment are measured on the cost basis less accumulated depreciation and accumulated impairment losses. In the event the carrying amount of plant and equipment is greater than the estimated recoverable amount, the carrying amount is written down immediately to the estimated recoverable amount and impairment losses are recognised either in profit or loss or as a revaluation decrease if the impairment losses relate to a revalued asset. A formal assessment of recoverable amount is made when impairment indicators are present.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Entity and the cost of the item can be measured

reliably. All other repairs and maintenance are charged to the statement of profit or loss and other comprehensive income during the financial period in which they are incurred.

Depreciation

Assets with a cost more than \$1,000 (2016-17 and 2017-18) are capitalised. Fixed assets are depreciated on a straight-line basis over the useful lives of the assets commencing from the time the asset is held ready for use.

The Board resolved in 2015-16 to adopt depreciation rates for its residential aged care facilities that reflect an effective life of 25 years. Further to that residential aged care facility Waratah will be demolished in 2018-19 and depreciation rates have been accelerated accordingly. Hakea Lodge residential aged care facility is expected to be decommissioned in 2019-20 financial year, the depreciation rates have been adjusted accordingly.

The depreciation rates used for each class of depreciable asset are:

Site Improvements	4 years to 30 years
Buildings (residential aged care)	25 years
Buildings (all other)	30 years to 40 years
Equipment and fittings	3 years to 20 years
Motor Vehicles	4 years
Office Equipment	3 years to 5 years

The assets' residual values and useful lives are reviewed and adjusted, if appropriate, at the end of each reporting period.

Gains and losses on disposal are determined by comparing proceeds with the carrying amount. These gains and losses are recognised in the profit or loss when the item is derecognised. When revalued assets have been sold, amounts included in the revaluation relating to that asset are transferred to retained surplus.

Impairment of Assets

At the end of each reporting period, the Entity assesses whether there is any indication that an asset may be impaired. The assessment will consider both external and internal sources of information. If such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of that asset, being the higher of the asset's fair value less costs to sell and its value-in-use, to the asset's carrying amount.

Notes to the Financial Statements

For the year ended 30 June 2018

SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Impairment of Assets CONTINUED ...

Any excess of the asset's carrying amount over its recoverable amount is immediately recognised in the statement of profit or loss and other comprehensive income.

Where an impairment loss on a revalued asset is identified, this is recognised against the revaluation surplus in respect of the same class of asset to the extent that the impairment loss does not exceed the amount in the revaluation surplus for that class of asset.

Intangibles

It was resolved by the Board of Directors for the year ended 30th June 2006 to value and record in the financial statements bed licences not previously recognised, in accordance with AASB 138: Intangible Assets. The resolution determined that any pre-October 1997 bed licences granted to the Entity be valued at \$44,000 per bed, and that any post October 1997 bed licences granted to the Entity be valued at \$40,000 per bed (refer note 8).

The carrying amounts for bed licences detailed in the accounts for the year ended 30th June 2018 have been tested for impairment. The current market value of these bed licences is greater than the carrying value.

Financial Instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the entity becomes a party to the contractual provisions to the instrument. For financial assets, this is equivalent to the date that the Entity commits itself to either purchase or sell the asset (ie trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transaction costs except where the instrument is classified "at fair value through statement of profit or loss and other comprehensive income", in which case transaction costs are expensed to profit or loss immediately.

Classification and subsequent measurement

Financial instruments are subsequently measured at fair value, amortised cost using the effective interest rate method, or cost.

Fair value represents the amount for which an asset could be exchanged or a liability settled, between knowledgeable, willing parties. Where available, quoted prices in an active market are

used to determine fair value. In other circumstances, valuation techniques are adopted.

Amortised cost is calculated as the amount at which the financial asset or financial liability is measured at initial recognition less principal repayments and any reduction for impairment, and adjusted for any cumulative amortisation of the difference between that initial amount and the maturity amount calculated using the effective interest rate method.

(i) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost. Gains or losses are recognised in the statement of profit or loss and other comprehensive income through the amortisation process and when the financial asset is derecognised.

(ii) Financial liabilities

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost. Gains or losses are recognised in the statement of profit or loss and other comprehensive income through the amortisation process and when the financial liability is derecognised.

Impairment

A financial asset (or a group of financial assets) is deemed to be impaired if, and only if, there is objective evidence of impairment because of one or more events (a "loss event") having occurred, which has an impact on the estimated future cash flows of the financial asset(s).

In the case of financial assets carried at amortised cost, loss events may include: indications that the debtors or a group of debtors are experiencing significant financial difficulty, default or delinquency in interest or principal payments; indications that they will enter bankruptcy or other financial reorganisation; and changes in arrears or economic conditions that correlate with defaults.

For financial assets carried at amortised cost (including loans and receivables), a separate allowance account is used to reduce the carrying amount of the financial assets impaired by credit losses. After having taken all possible measures of recovery, if management establishes that the carrying amount cannot be recovered by any means, at that point the written-off amounts are charged to the allowance account or the carrying amount of impaired financial assets is reduced directly if no impairment amount was previously recognised in the allowance account.

Notes to the Financial Statements

For the year ended 30 June 2018

SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial Instruments CONTINUED ...

When the terms of financial assets that would otherwise have been past due or impaired have been renegotiated, the association recognises the impairment for such financial assets by considering the original terms as if the terms have not been renegotiated so that the loss events that have occurred are duly considered.

Fair Value of Assets and Liabilities

The association measures some of its assets and liabilities at fair value on either a recurring or non-recurring basis, depending on the requirements of the applicable Accounting Standard. Fair value is the price the association would receive to sell an asset or would have to pay to transfer a liability in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset or liability. The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from the principal market for the asset or liability (ie the market with the greatest volume and level of activity for the asset or liability). In the absence of such a market, information is extracted from the most advantageous market available to the entity at the reporting date (ie the market that maximises the receipts from the sale of the asset or minimises the payment made to transfer the liability, after considering transaction costs and transport costs).

For property plant and equipment after recognition an asset shall be carried at its cost less any accumulated depreciation and any accumulated impairment losses.⁷ To ensure that assets are reported at fair value, regular considerations must be given to any impairment losses. An assessment will be carried out at the end of each reporting period in accordance with AASB 136 on whether there are any indications of any assets being identified as impaired.

The fair value of liabilities and the entity's own equity instruments (excluding those related to share-based payment arrangements) may be valued, where there is no observable market price in relation to the transfer of an identical or similar financial instrument, by reference to observable market information where identical or similar instruments are held as assets. Where this information is not available, other valuation techniques are adopted and, where significant, are detailed in the respective note to the financial statements.

Derecognition

Financial assets are derecognised where the contractual right to receipt of cash flows expires or the asset is transferred to another party, whereby the entity no longer has any significant continuing involvement in the risks and benefits associated with the asset. Financial liabilities are derecognised where related obligations are discharged, cancelled or expired. The difference between the carrying amount of the financial liability extinguished or transferred to another party and the fair value of consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in the statement of profit or loss and other comprehensive income.

Employee Benefits

Short-term employee benefits:

Provision is made for the association's obligation for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service (salaries and wages). Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Entity's obligations for short-term employee benefits such as salaries and wages are recognised as a part of current trade and other payables in the statement of financial position.

Other long-term employee benefits:

Provision is made for employees' annual leave entitlements not expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service. Other long-term employee benefits are measured at the present value of the expected future payments to be made to employees.

Notes to the Financial Statements

For the year ended 30 June 2017

SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Other long-term employee benefits CONTINUED ...

Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures, and are discounted at rates determined by reference to end-of-reporting-period market yields on government bonds that have maturity dates approximating the terms of the obligations. Any re measurement of other long-term employee benefit obligations due to changes in assumptions are recognised in profit or loss in the periods in which the changes occur.

Accounts Payable and Other Payables

Accounts payable and other payables represent the liability outstanding at the end of the reporting period for goods and services received by the Entity during the reporting period that remain unpaid. The balance is recognised as a current liability with the amounts normally paid within 30 days of recognition of the liability.

Provisions

Provisions are recognised when the association has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured. Provisions recognised represent the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Refundable accommodation deposits and resident accommodation bonds

Refundable accommodation deposits and resident accommodation bonds are non-interest-bearing deposits made by aged care facility residents to the Entity upon their admission. Refundable accommodation deposits are measured at their principal amount less any other amounts deducted from the deposit at the election of the resident. Accommodation bonds are measured at the principal amount net of any retentions or any other amounts deducted from the bond at the election of the resident.

The repayment of the refundable deposits and accommodation bonds net of any retention will be funded largely by refundable deposits from incoming residents.

Resident entry contributions

Resident entry contributions are received from residents of the independent living units and they are non-interest bearing with the net amount repayable upon departure or transfer. Resident entry contributions are measured at their principle amount net of any retentions.

The repayment of the resident entry contribution net of any retention will be funded largely by entry contribution from incoming residents.

Segment Reporting

As an approved provider for the purposes of the Aged Care Act 1997 and in receipt of Conditional Adjustment Payments, the provider is required to comply with the financial reporting requirements of Accountability Principles 2014, Part 4, Division 2, Section 35 (2) (e). Paragraph 2(e) of Accountability states "treat residential aged care as a reportable segment within the meaning of the accounting standard relating to segment reporting that applies to that relevant financial year".

The provider is applying Australian Accounting Standards – Reduced Disclosure Requirements and in accordance with paragraph Aus2.6 AASB 8: Operating Segments the provider has elected to comply with some of the requirements of AASB 8 to allow the reporting of the residential aged care segment to ensure compliance with conditions of the Conditional Adjustment Payment funding arrangements. The residential aged segment information is disclosed in note 20.

Notes to the Financial Statements

For the year ended 30 June 2018

SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

New and revised accounting standards

The AASB has issued new and amended standards and interpretations that have mandatory application dates for future reporting periods, some of which are relevant to the Entity. The Entity has decided against early adoption of these standards as they will not have any significant impact on future financial reports. The Entity assessment of the new and amended pronouncements that are relevant to the Entity but applicable in future reporting periods is set out below:

Standard/ Interpretation	Summary	Applicable for annual reporting Beginning on	Impact on Financial Statements
AASB 9 Financial Instruments	The key changes include the simplified requirements for the classification and measurement of financial assets, a new hedging accounting model and a revised impairment loss model to recognise impairment losses earlier, as opposed to the current approach that recognised impairment only when incurred.	1 Jan 2018	Detail of impact is still being assessed
AASB 15 Revenue From Contracts With Customers	The core principle of AASB 15 requires an entity to recognise revenue when the entity satisfies a performance obligation by transferring a promised good or service to a customer.	1 Jan 2018	This Standard is not expected to significantly impact the association's financial statements.
AASB 2014-1 Amendments to Australian Accounting Standards (Part E Financial Instruments)	Amends various AAABs ¹ to reflect the AASB's decision to defer the mandatory application date of AASB 9 to annual reporting periods beginning on or after 1 January 2018, because of Chapter 6 Hedge Accounting, and to amend reduced Disclosure requirements.	1 Jan 2018	This Standard is not expected to significantly impact the association's financial statements.
AASB 2014-4 Amendments to Australian Accounting Standards - Clarification of Acceptable Methods of Depreciation and Amortisation (AASB 116 & AASB 138)	Amends AASB 116 Property, Plant & Equipment and AASB 138 Intangible Assets to: establish the principle for the basis of depreciation and amortisation as being the expected pattern of consumption of the future economic benefits of an asset; prohibit the use of revenue-based methods to calculate the depreciation or amortisation of an asset, tangible or intangible, because revenue generally, reflects the pattern of economic benefits that are generated from operating the business, rather than the consumption through the use of the asset	1 Jan 2018	This Standard is not expected to significantly impact the association's financial statements.
AASB 16 Leases	The key changes introduced by AASB 16 include the recognition of most operating leases (which are currently not recognised) on the Balance sheet.	1 Jan 2019	The Standard is not expected to significantly impact the association's financial statement.

a) Bed Licences at Cost:			
Existing Licences	82	3,294,874	3,294,874
Adjustment for Impairment	-	(65,000)	(65,000)
Licences at Cost	82	3,229,874	3,229,874
b) Bed Licences at Directors Valuation:			
Pre Oct 97 Licences	162	7,128,000	7,128,000
Post Oct 97 Licences	27	1,080,000	1,080,000
Licences at Directors Valuation	189	8,208,000	8,208,000
Total Value of Bed Licences	271	11,437,874	11,437,874

The recent release of the Legislated Review Of Aged Care 2017 Report dated 31st July 2017 includes a recommendation which would effectively deregulate the market for residential aged care bed licences. In the event that this legislated it would require the following:

(a) Bed Licences at Directors Valuation recorded at \$8.208 million would be removed via a change in accounting policy and presented in the financials as a retrospective adjustment (write back) to retained earnings.

(b) The purchased licences at a cost of \$3,229,874 remain on the statement of financial position and when the Government enforces deregulation the value of the bed licences will be impaired as an expense via the statement of profit and loss.

NOTE: The Board will review the valuation of bed licences annually in light of further Departmental advice on the status of deregulation.

Note 9: Accounts Payable and Other Payables

Creditors & Accruals	3,716,542	1,725,003
Total Payables	3,716,542	1,725,003

Note 10: Employee Benefits

Employee Benefits – Expected to settle within 12 months

- Annual Leave	1,068,636	1,103,799
- Long Service Leave	112,194	111,488
- Provision related to employee oncosts	18,353	16,177
	1,199,183	1,231,464

Employee Benefits – Expected to settle after 12 months

- Long Service Leave	2,131,694	2,118,275
- Provision related to employee oncosts	348,697	307,351
	2,480,391	2,425,626
Total Employee Benefits	3,679,574	3,657,090

The provision for employee benefits represented amounts accrued for annual leave and long service leave. Based on past experience the association does not expect the full amount of annual leave to be settled wholly within the next 12 months. However the amount must be classified as a current liability because the association does not have an unconditional right to defer the settlement of the amount in the event employees wish to use their leave entitlements.

Notes to the Financial Statements

For the year ended 30 June 2018

	2018 \$	2017 \$
Note 11: Refundable Loans		
Refundable Loans – Expected to settle within 12 months		
– Resident accommodation bonds/refundable deposits	12,017,373	10,654,532
– Resident Ingoings Independent Living	3,833,402	3,683,936
	15,850,775	14,338,468
Refundable Loans – Expected to settle after 12 months		
– Resident accommodation bonds/refundable deposits	27,039,088	25,827,126
– Resident Ingoings Independent Living	32,998,341	31,168,036
	60,037,429	56,995,162
Total Refundable Loans	75,888,204	71,333,630

(a) Terms and conditions

Accommodation Bonds/Refundable deposits are repayable on the following basis:

- (i) if the resident gives notice more than 14 days prior to departure the bond is payable on the date of departure;
- (ii) if the resident gives notice less than 14 days prior to departure the bond is payable within 14 days after notice is given
- (iii) if the resident gives no notice the bond is repayable 14 days after departure; and
- (iv) if the resident dies, the bond is repayable within 14 days from the date that notice is received of the granting of probate or letters of administration.

Resident ingoings for independent living are non-interest bearing and have maximum refund period of up to 6 months from date of departure.

(b) Resident accommodation bonds/refundable deposits

Accommodation bonds/refundable deposits are liabilities which are payable when the aged residential care resident leaves the facility. The total balance owing to residents has been classified as being "estimated to settle within 12 months" or "estimate to settle after 12 months" on the basis of average refund payments over the previous 3 years.

(c) Resident Ingoings Independent Living

Resident ingoings for independent living are liabilities which are payable when the aged self care resident leaves the unit. The total balance owing to residents has been classified as being "estimated to settle within 12 months" or "estimate to settle after 12 months" on the basis of average refund payments over the previous 3 years.

Note 12: Contingent Liabilities and Assets

There are no known contingent liabilities or assets at the date of this report.

	2018 \$	2017 \$

INDEPENDENT AUDIT REPORT TO THE MEMBERS OF SHEPPARTON RETIREMENT VILLAGES INC.

We have audited the accompanying financial report, of Shepparton Retirement Villages Inc. (the association), which comprises the statement of financial position as at 30 June 2018, the statement of profit or loss and other comprehensive income, statement of changes in equity, statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the certification by members of the Board on the annual statements giving a true and fair view of the financial position and performance of the Association.

Board's Responsibility for the Financial Report

The Board of the Association is responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards (including Australian Accounting Interpretations) and the *Association Incorporation Reform Act 2012 (Vic)* and for such internal control as the Board determines is necessary to enable the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We have conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the association's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the association's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial report of Shepparton Retirement Villages Inc. is in accordance with the *Associations Incorporation Reform Act 2012 (Vic)*, including:

- (i) Giving a true and fair view of the Association's financial position as at 30 June 2018 and of its performance for the year ended on that date; and
- (ii) Complying with Australian Accounting Standards.
